

To whom it may concern,

I have found through this election process that I am neither a democrat or a republican. I find that the process of choosing a candidate for any office should be based on merit along with their political views. I am outraged to find that Sinclair broadcasting is even contemplating such a biased documentary under the guise of journalism.

For this reason I ask that the FCC take action to ban Sinclair from airing such a partisan piece days before the election. Letting Sinclair air this piece would set a powerful precedent for other media outlets to air similiar pieces. The fututre of politics would turn into a 24/7 media display on untruths and lies played out on network tv as factual news. This would not only erode the credibility of all journalism, but also erode a fair election process controlled by the citizens of the country and not by the few powerful owners of bradcasting stations.

Thank you in advance for your consideration.
